USB INTERFACE

GO LARGE FACILITY

VITRO

Combining stunning design and proven robust technology, the Vitro range from Coffetek is at the cutting edge of hot drink dispense systems.

Finished in smoked glass the angular design with chrome finish trim provides a contemporary feel, the patented In-Touch user interface is akin to many consumer electronic devices with large drink button icons. Comprising of three models with further developments in progress to add high pressure espresso technology the Vitro range provides a complete hot beverage solution.

The Vitro range now incorporates updated control technology, with advanced features such as an intuitive USB interface, timed activities – economy \ shutdown mode and flexible drink programming.

A Go-Large option is available on all of the Vitro range providing two cup levels at the push of a button.

**PREVIEW**

*This literature is a preview of the Vitro which will be available at the end of 2011*
